

# The ultimate *universal dry verge*

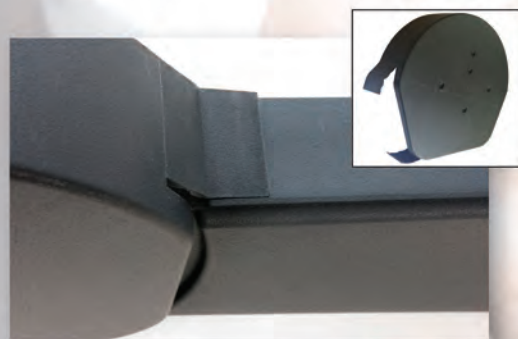

## easy-trim Verge U

**High speed, high quality,  
easy to install dry verge**

Easy-Trim Verge U is truly universal in that the units can be used on the left and right side of the verge, and they are compatible with almost every tile type. The unique design combines fast, simple installation with exceptional holding qualities.

- Flexible polypropylene material allows for rapid installation
- Universal handed units; left & right hand pieces no longer required
- Complies with BS5534 mechanical fixing requirements
- Install in all weather conditions
- Tight secure fit, not vulnerable to wind-dislodgement
- Exceptional UV Stability

In conjunction with our Easy-Trim Verge U system, our ridge end caps feature innovative FlapCap Technology. Flexible flaps which contour around the sides of the Verge U piece create a 'sealed' unit, preventing water ingress and infestation whilst also adding to the neatly finished aesthetic.
